

2009 HCPCS Update

Reference: Trans. 1629, CR #6236, Pub. 100-04

Each year, Medicare contractors are required to update their coding system to reflect changes made in the Current Procedure Terminology (CPT) as well as changes to CMS and locally designated codes. Pinnacle Medicare Services has implemented the revisions to the Healthcare Common Procedure Coding System (HCPCS) to reflect the 2009 updates.

This article contains a list of the additions, deletions, short description, re-activated codes and long description changes to the alphanumeric HCPCS codes and modifiers that are effective January 1, 2009, and updates last year's HCPCS listing published in the December 2007 issue of *Medicare Provider News*.

The HCPCS update does not contain all changes to the 2009 CPT. We strongly recommend that you purchase a 2009 CPT book. CPT books can be purchased from your local medical bookstore or from the American Medical Association at the following address:

American Medical Association
Order Department
P.O. Box 109050
Chicago, IL 60610
1-(800) 621-8335

The CPT procedure codes and descriptions are also available on magnetic tape in a full-procedure or short-description version. Send requests for information regarding the CPT magnetic computer tapes to the address above.

Description of HCPCS Code Levels

There are three levels of procedure codes and modifiers within the HCPCS coding system. Modifiers are used in addition to the procedure code when applicable (e.g., XXXXX**11**) Level I and II codes are applicable nationally for all Medicare Part B carriers. Level III codes are unique to each state's carrier.

Level I Codes: Level I codes and modifiers are those listed in the CPT. They are five position numeric codes and two position numeric modifiers. The range for these codes is: **00100-99499**.

Level II Codes: Level II codes and modifiers are developed to supplement the CPT physician and non-physician services. Level II contains procedure codes for ambulance services and injections, etc. The range for these codes is: **A0000-V9999**.

Level III Codes: Level III codes and modifiers, developed by each state's carrier, supplement Levels I and II if no procedure codes exist for certain frequently billed Part B services. Level III contains procedure codes for physician and supplier services. The range for these codes is **W0000-Z9999**.

Although Level I codes must be obtained from the American Medical Association, Pinnacle Medicare Services supplies both Level II and III codes. All CPT codes in this bulletin are reprinted with the permission of the AMA. We supply your office with this list of the most important coding changes. If you would like to purchase a hardcopy or tape copy of the complete 2009 HCPCS code list, contact the following locations:

HCPCS Disclaimer: HCPCS is designed to promote uniform medical services reporting and statistical data collection. Inclusion of a service, product or supply does not constitute endorsement by either the CPT or alpha-numeric panels that it is non-investigational or that it is commonly recognized as appropriate for medical care and treatment. Inclusion or exclusion of a procedure, product or supply does not imply any coverage or reimbursement policy.
